SCHOOL DISTRICT LEGAL STATUS

The United States Constitution leaves to the individual states responsibility for public education.

The Ohio General Assembly is under mandate by the Constitution of Ohio to provide for the organization, administration and control of a public school system supported by public funds. The Ohio State Constitution also calls for a State Board of Education and a Superintendent of Public Instruction.

The General Assembly has outlined the duties of the State Board of Education and the Chief State School Officer. It has also established a State Department of Education (through which policies and directives of the State Board and Superintendent of Public Instruction are administered) and has established specific types of school districts.

The Manchester Local School District is classified as a local school district operating under the supervision of the South Central Ohio Educational Service Center. The District is governed by a locally elected Board of Education.

COMMUNITY INVOLVEMENT IN DECISION MAKING

Community participation in the schools is essential to promote and maintain the quality of education for all students.

In addition to electing fellow citizens to represent them on the Board, all citizens may express ideas, concerns and judgments about the schools to the administration, to the staff, to any appointed advisory bodies and ultimately to the Board. Ideas should be addressed to the responsible individual in an appropriate fashion.

Residents may be invited by the Board to act as advisors, individually and in groups, in such areas as:

1. clarifying general ideas and attitudes held by residents in regard to the schools;
2. developing Board policies under which the school system is to be managed;
3. establishing administrative arrangements and regulations designed to help implement these policies;
4. determining the purposes of courses of study, special services and facilities to be provided for students;
5. evaluating the extent to which these purposes are being achieved by present policies and/or
6. solving a specific problem or set of closely related problems about which a decision must be made.

The Board gives consideration to the advice it receives from individuals and community groups. Final authority for all decisions rests with the Board. The Board directs the Superintendent/designee to develop and maintain procedures for community involvement.

STAFF INVOLVEMENT IN DECISION MAKING

The District involves the efforts of many people and functions best when all personnel are informed of the major activities and concerns.

There should be an exchange of ideas and pertinent information among all elements of a school district. Problems and unfavorable attitudes develop when employees are denied information essential for the performance of their respective assignments or when they feel that their ideas and concerns are not heard. Morale is enhanced when employees are assured that their voices are heard by those in positions of administrative authority.

A pattern of decision making and problem solving close to the task also contributes to efficiency and high morale.

While all employees have the opportunity to bring their ideas or grievances to the Board, they are expected to proceed through the recognized administrative channels. Final authority for all decisions rests with the Board.

STUDENT INVOLVEMENT IN DECISION MAKING

Students share responsibility for developing a climate in the school which is conducive to learning. Through participation in the decision-making process, students can be an important resource for the improvement of the school, the educational system and the community. Periodically, students may be asked to review school policies, rules and regulations. Final authority for all decisions rests with the Board.

NONDISCRIMINATION

The Board's policy of nondiscrimination extends to students, staff, job applicants, the general public and individuals with whom it does business and applies to race, color, national origin, citizenship status, religion, sex, economic status, age or disability.

The Board does not permit discriminatory practices and views harassment as a form of discrimination. Harassment is defined as intimidation by threats of or actual physical violence; the creation, by whatever means, including the use of electronic communications devices, of a climate of hostility or intimidation; or the use of language, conduct or symbols in such a manner as to be commonly understood to convey hatred, contempt or prejudice or to have the effect of insulting or stigmatizing an individual.

Employees or students who engage in discrimination of another employee or student shall be subject to disciplinary action.

Permission, consent or assumption of risk by an individual subjected to discrimination does not lessen the prohibition contained in this policy.

No one shall retaliate against an employee or student because he/she files a grievance; assists or participates in an investigation, proceeding or hearing regarding the charge of discrimination of an individual; or because he/she has opposed language or conduct that violates this policy.

NONDISCRIMINATION ON THE BASIS OF SEX

The U.S. Department of Education has published regulations for implementing Title IX of the Education Amendments of 1972, which prohibits sex discrimination in federally assisted education programs.

Title IX states, in part: "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any education program or activity receiving federal financial assistance."

The Board ensures compliance with Title IX of the Education Amendments of 1972, Title VI of the Civil Rights Act of 1964 and the regulations promulgated through the U.S. Department of Education.

SEXUAL HARASSMENT

All persons associated with the District, including, but not limited to, the Board, the administration, the staff and the students, are expected to conduct themselves at all times so as to provide an atmosphere free from sexual harassment. Sexual harassment, whether verbal or nonverbal, occurring inside or outside of District buildings, on other District-owned property or at school-sponsored social functions/activities, is illegal and unacceptable and will not be tolerated. Any person who engages in sexual harassment while acting as a member of the school community is in violation of this policy.

The Board has developed complaint procedures which are available to victims. The Board has also identified disciplinary penalties which could be imposed on the offenders.

Definition of Sexual Harassment: Unwelcome sexual advances, requests for sexual favors or other verbal or physical conduct of a sexual nature may constitute sexual harassment when:

1. submission to such conduct is made, either explicitly or implicitly, a term or condition of a person's employment or educational development;
2. submission to, or rejection of, such conduct by an individual is used as the basis for employment or education decisions affecting such individual or
3. such conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile or offensive environment.

Examples of sexual harassment-type conduct may include, but are not limited to, any means of conveying unwanted sexual advances; demands for sexual favors in exchange for favorable treatment or continued employment; repeated sexual jokes, flirtations, advances or propositions; verbal abuse of a sexual nature; graphic verbal commentary relating to an individual's body, sexual prowess or sexual deficiencies; coerced sexual activities; any unwanted physical contact; sexually suggestive or obscene comments or gestures; or displays in the workplace of sexually suggestive or obscene objects or pictures. Whether any such act or comment may constitute sexual harassment-type conduct is often dependent on the individual recipient.

The Compliance Officer: The Board authorizes the Superintendent to appoint one or more sexual harassment grievance officers who are vested with the authority and responsibility for processing all sexual harassment complaints in accordance with the procedure set forth in the accompanying regulation and staff and student handbooks.

Sexual matters, including the identity of both the charging party and the accused, are kept confidential to the extent possible. Although discipline may be imposed against the accused upon a finding of guilt, retaliation is prohibited.

NONDISCRIMINATION ON THE BASIS OF DISABILITY

The Board maintains that discrimination against a qualified person with a disability solely on the basis of disability is unfair. To the extent possible, a qualified person with a disability should be in the mainstream of life in a school community. In addition, the District is the recipient of federal funds and therefore must be in compliance with all laws and regulations which deal with disabled individuals.

Accordingly, employees of the District comply with the law and Board policy to ensure nondiscrimination on the basis of disability. The following are expected.

1. No one discriminates against qualified persons with a disability in any aspect of school employment solely on the basis of disability.
2. Facilities, programs and activities are made available to qualified persons with a disability.
3. Free appropriate public education at elementary and secondary levels, including nonacademic and extracurricular services and activities, are provided to qualified persons with a disability.
4. No one excludes any qualified person with a disability, solely on the basis of disability, from participation in any preschool education, day care, adult education or career-technical education program.
5. Each qualified person with a disability is provided with the same health, welfare and other social which are provided to others.

NOTE:

Due to State and Federal law, many boards are adopting policies and extensive regulations pertaining to Nondiscrimination on the Basis of Disability. At times, policy, regulations and specific plans for action are combined in one long statement presented as policy; other school districts present policy and regulatory statements separately. If your school board has detailed regulations related to Section 504 of the Rehabilitation Act of 1973 and/or the Education for All Handicapped Children Act of 1975, they can immediately follow in the manner under ACB-R.

The cross reference on the policy is to a closely related category in which most boards will have policies.

DEVELOPMENT OF PHILOSOPHY OF EDUCATION

The Board's philosophy of education gives direction to the educational program and daily operations of the District.

Periodically, the policy committee of the Board and the Superintendent evaluate the philosophy of education. Suggestions from both staff and community are considered.

The committee revises or confirms the existing philosophy or writes a new statement of philosophy. The committee presents its recommendation regarding a philosophy of education to the Board for adoption or re-adoption.

All building and course of study philosophies reflect and extend the Board's philosophy. The Superintendent disseminates the Board's philosophy of education to all staff members and directs that it be published in all handbooks.

COMMITMENT TO ACCOMPLISHMENT

Evaluation of District operations is a chief responsibility of the Board and is the only means of determining whether the educational goals adopted are being achieved.

The evaluation program may include, but is not limited to, the following areas.

1. curriculum and instruction
2. students, dropouts and graduates
3. school personnel
4. buildings and equipment
5. business operations
6. operations of the Board

Appraising the success of the instructional program is particularly important. Only through an awareness of the strengths and shortcomings of the program can the Board and Superintendent have a sound basis for making improvements. The improvements are made by the Superintendent through the implementation of policies adopted by the Board.

The Board:

1. assesses the District's operations and achievement of goals by information gathered from the Superintendent and Treasurer;
2. evaluates the Superintendent and Treasurer according to job descriptions and Board expectations and
3. evaluates itself according to its established goals and purposes.

EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

Boards of education expect a high level of performance from those who are employed to run the schools. School patrons and other taxpayers also expect a high level of performance from those who are elected to govern the schools.

Ultimately, the performance of an individual Board member is measured at election time. However, that is not enough. Each Board should set aside some time on a regular basis to compare individual assessments of how well the governing body is functioning. The instrument or scoring system is not important. What is important is for the Board to establish a plan to regularly analyze its method of operation. The results of evaluation should be used in setting goals for improved operations in the future.

Additional Comments:

EVALUATION OF THE SUPERINTENDENT

The Board evaluates the performance of the Superintendent in order to assist both the Board and the Superintendent in the proper discharge of their responsibilities and to enable the Board to provide the District with the best possible leadership.

Through evaluation of the Superintendent, the Board strives to:

1. clarify the role of the Superintendent as seen by the Board;
2. develop harmonious working relationships between the Board and Superintendent;
3. provide administrative leadership for the District and
4. identify strengths and weaknesses of the Superintendent's performance.

Criteria for the evaluation of the Superintendent are based upon the Superintendent's job description and relate directly to each of the tasks described. The job description and any revisions thereto are developed in consultation with the Superintendent and adopted by the Board.

The Board evaluates the abilities and services of the Superintendent at least once a year.

The evaluation of the Superintendent's abilities and performance is written and made available to and discussed with the Superintendent in conference. The Board must consider the evaluation of the Superintendent in acting to renew or nonrenew his/her contract.
